

PIC/D-6/60

7 January 1960

MEMORANDUM FOR: Assistant Director, Office of Research and Reports
ATTENTION: Special Assistant to the Chief, Geographic Research
SUBJECT: ACIC Directive for Elimination of WAC on Eurasia
REFERENCE: Memorandum from SA to Ch/G/RR, dated 22 December 1959,
Subject same as above

As can be expected, the elimination of WACs from the ACIC production schedule on Eurasia will pose difficulties for the Photographic Intelligence Center. It is understood that the USAF does not intend to eliminate the BE, ATMP and SAC 1:200,000 series numbering systems. As long as these are retained we feel that we shall be able to cope with most of the problems which might be encountered. The remainder we will be able to overcome if ACIC will place the appropriate tick marks and WAC Chart numbers on the large and small ONCs similar to the manner accomplished on JN series, so that indexing to the WAC Chart may be continued.

ILLEGIB

ARTHUR C. LUNDAHL
Director
Photographic Intelligence Center
